

Dear Colleagues and Friends,

We write to inform you that the 22nd European Congress of Physical and Rehabilitation Medicine (ESPRM 2020), scheduled for 19th – 23rd September 2020. This letter itemizes the origin of that decision.

Since the WHO declared the pandemic of the COVID-19 on March 11th, and since the health of our friends and colleagues must remain our principle priority 2020, common decision of the Congress Presidents and the ESPRM Executive Committee is to postpone the 22nd European Congress of Physical and Rehabilitation Medicine (ESPRM 2020).

In view of the huge amount of effort and resource devoted to the ESPRM 2020 Congress by the Scientific Community as well as by the corporate entities supporting the event, we feel that simply cancelling the congress is not an option. Therefore, we would like to inform you that the ESPRM 2020 Congress will now take place in Belgrade, Serbia, as anticipated, but that the dates of the event have moved to:

19th – 23rd September 2020

The first work day will start on 19th of September at 8 ap. The end of the program is planned for 23th of September. We expect the original program of the meeting to be remain, and all information about it will be available soon at the website (www.esprm2020.com).

All registrations to the Congress, as well as oral and poster presentations are automatically moved to the new dates.

We understand that this new situation is not what we originally hoped for, and be sure that all measures were taken to preserve the original dates and to organize this meeting in a safe environment, mitigating the risk of COVID-19 transmission to our participants.

Thank you for your understanding and we look forward to see You at ESPRM Congress in Belgrade.

Warmest regards,

President of the 22nd ESPRM 2020 Congress

President of ESPRM

ESPRM Executive Committee
